Form A National implementation measures

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
   a) The national implementation measures referred to in Article 9."

Remark: In accordance with Article 9, "Each State Party shall take all appropriate legal, administrative and other measures, including the imposition of penal sanctions, to prevent and suppress any activity prohibited to a State Party under this Convention undertaken by persons or on territory under its jurisdiction or control".

State [Party]: Bosnia and Herzegovina reporting for time period from January to December 2012

Chapter XVII: Criminal acts against humanity and values protected under international law – Articles 193 and 193 a. |
Form B Stockpiled anti-personnel mines

Article 7.1 "Each State Party shall report to the Secretary-General ... on:
   b) The total of all stockpiled anti-personnel mines owned or possessed by it, or under its jurisdiction or control, to include a breakdown of the type, quantity and, if possible, lot numbers of each type of anti-personnel mine stockpiled."

State [Party]: Bosnia and Herzegovina reporting for time period from January to December 2012

The State Party of Bosnia and Herzegovina has destroyed all stocks of landmines except those retained for training purposes as allowed in the Convention. This was reported in our last report. Detailed figures are as follows.

BH Armed Forces have 125 AP Mines without fuses for training purposes.
MDDC (Mine Detection Dogs Centre Bosnia and Herzegovina) have 62 AP mines without fuses in use as targets for explosive detecting dogs testing.
Mine Action Centre (BHMAC) - 351 mines kept for training purposes.
Civil Protection Republic of Srpska – 17 AP mines without fuses.
Civil Protection of Federation BiH – 314 AP mines without fuses. (All mines are temporarily disposed in warehouses for a specific purpose of the Federal Civil Protection Administration within the enterprise Pretis-Vogosca. About 80% mines will be destroyed within regular activities of UXO and EOD destruction, while the part will be kept for development of training polygon for EDDs and training of operators for UXO destruction).
Other demining companies – 591 mines without fuses.

Total in BiH: 1,460 mines without fuses.

<td>1992-1995.</td>
<td>Mine suspected area on the end of reporting period in Bosnia and Herzegovina is 1,262 km².</td>
</tr>
</tbody>
</table>

* If necessary, a separate table for each mined area may be provided.
In 2012, mine suspect area is reduced by 77, 24 km² or 53% out of plan – 146, 65 km². Humanitarian demining operations reduced 8, 76 km² of mine risk area (7,46 km² through technical survey operations and 1, 30 km² through clearance operations); within general survey operations, 10, 82 km² has been declared as area without defined risk while 57,66 km² has been reduced through additional analysis and mine suspect area assessment within the systematic survey operations.
Form D APMs retained or transferred

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

d) The types, quantities and, if possible, lot numbers of all anti-personnel mines retained or transferred for the development of and training in mine detection, mine clearance or mine destruction techniques, or transferred for the purpose of destruction, as well as the institutions authorized by a State Party to retain or transfer anti-personnel mines, in accordance with Article 3"

In November 1999 BiH reported UN General Secretary that it destroyed all the stockpiles of mines, i.e. 460,727 pieces.

Remark:
Mines already stored by Civilian Protection of Federation of Bosnia and Herzegovina will be destroyed within regular annual activities on destruction of UES and other mines and explosive devices in May, the following year. A maximum of 20% of mines will be retained for the construction of the training ground for MDD's and EOD operators' training.

Form I Measures to provide warning to the population

Article 7.1 "Each State Party shall report to the Secretary-General ... on:

i) The measures taken to provide an immediate and effective warning to the population in relation to all areas identified under paragraph 2 of Article 5."

Remark: In accordance with Article 5, para.2: "Each State Party shall make every effort to identify all areas under its jurisdiction or control in which anti-personnel mines are known or suspected to be emplaced and shall ensure as soon as possible that all anti-personnel mines in mined areas under its jurisdiction or control are perimeter-marked, monitored and protected by fencing or other means, to ensure the effective exclusion of civilians, until all anti-personnel mines contained therein have been destroyed. The marking shall at least be to the standards set out in the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices, as amended on 3 May 1996, annexed to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects”.

State [Party]: Bosnia and Herzegovina reporting for time period from January to December 2012

[Narrative:]
The focus of MRE activities throughout 2012 was follow up of Standard and SOP applications, coordination, technical inspections and integration with other mine action. There was a continuation of individual meetings with representatives from Bosnia and Herzegovina Mine Action Centre with the accredited MRE organizations in order to reach improvement and coordination, where MRE organizations were monitored / under inspection within the realization of their MRE tasks / activities. In this reporting period, an Implementation Committee Coordination Meeting was held for the purpose of informing the accredited organizations and planning the activities for celebration of 4 April, International Day for Mine Awareness and Assistance in Mine Action. Mine Risk Education had its key role in implementation of Mine Action Plans for mine / UXO impacted municipalities, and within their tasks MRE projects were realized, i.e. projects of emergency and permanent marking, as well as placing mine situation information panels / billboards. With technical and financial support from EUFOR, NGO „Stop Mines“ has conducted a training course for MRE instructors, successfully attended and completed by 21 attendees, mostly EUFOR LOT teams interpreters and representatives of organizations accredited for MRE. Within the revision procedures for Mine Action Strategies 2009 – 2019, Bosnia and Herzegovina Mine Action Centre organized two day long workshop with technical and financial support from International Red Cross Committee in order to revise MRE sub-strategies In this reporting period, 17 MRE projects were realized, with 15.097 persons educated on mine hazards. In 2012, 11.563 urgent marking signs were placed which is 83% out of plan - 14.000 pieces. Within systematic and general survey operations, BOSNIA AND HERZEGOVINA MAC Survey teams have placed 11.291 mine warning signs at 901 locations, which is 90% out of plan – 12.500 pieces, while accredited organizations, within their MRE activities, placed 272 mine warning signs which is 18% out of plan – 1.500 pieces. In 2012, 38 projects of permanent marking / access barring were realized in category III with the area of 7, 38 km2 or 23% out of plan - 32, 75 km2. Through these operations / activities, 954 individual signs were placed, which is 19% out of plan – 5.000 pieces, along with 14 mine situation information panels / billboards.
Form J Other relevant matters

Remark: States Parties may use this form to report voluntarily on other relevant matters, including matters pertaining to compliance and implementation not covered by the formal reporting requirements contained in Article 7. States Parties are encouraged to use this form to report on activities undertaken with respect to Article 6, and in particular to report on assistance provided for the care and rehabilitation, and social and economic reintegration, of mine victims.

State [Party]: Bosnia and Herzegovina reporting for time period from January to December 2012

[Narrative / reference to other reports:]

- The size of mine suspect area is 1.262,82 km²;
- Mine suspect area is reduced by 77,24 km² or 53% out of plan;
- Total newly surveyed mine risk / suspect area is 97,0 km² or 122% out of plan;
- Newly surveyed mine risk area of 49,81 km² (603 humanitarian demining projects) and surveyed III category area of 47,19 km² (222 permanent marking projects);
- 181 completed tasks
- Sampled area of 8,76 km² or 28% out of plan. Technical survey operations reduced 7,46 km² mine risk area or 34% out of plan, while clearance operations reduced 1,30 km² of mine risk area or 14% out of plan;
- Found and destroyed 904 AP mines, 75 AT mines, 636 pieces of UXOs. Average number of mines found and destroyed per hectare is 7,5 mines/ha;
- 65 humanitarian demining tasks of total area 2,36 km² are in process;
- 38 permanent marking / access barring projects were realized with the area of 37,38 km² or 23% out of plan. Through stated operation, 954 individual marking signs were places, which is 19% out of plan, along with 14 mine situation information panels / billboards;
- Emergency marking activities resulted in 11.563 placed mine warning signs or 83% out of plan;
- QC Inspectors from Mine Action Centre Bosnia and Herzegovina conducted 2.910 inspections or 36% out of plan;
- 17 MRE projects were realized, where 15.097 persons were educated on mine hazard; 13 Mine / UXO Victims Assistance projects were realized where 800 of direct users were provided with assistance;
- There were 9 incidents registered in 2012, resulting in total 12 victims. There were 9 deaths and 3 wounded persons.
MINE VICTIM ASSISTANCE

In 2012, 4 coordinating meetings were held dealing with mine / UXO victims assistance in BOSNIA AND HERZEGOVINA, all in order to improve the status of mine / UXO victims. There were continuous activities in the area of reporting based on Conventions and Protocols signed by Bosnia and Herzegovina, amongst them those which treat mine / UXO victims assistance. Representatives from Bosnia and Herzegovina attended Geneva held Convention for member countries, which signed Ottawa Convention, where current situation in Bosnia and Herzegovina related to this issue was presented. Apart from abovementioned, there were continuous activities conducted on updating database (BOSNIA AND HERZEGOVINAMAIIS), i.e. collection and input of data related to registered mine incidents / demining accidents, as well as input of data on projects related to mine / UXO victims assistance. 71 mine/UXO victims are registered in BHMAIS data base based on the appropriate data, military and medical documentation and completed forms related to mine/UXO victims. Additionally, there were analyzed information about cluster munitions victims and law regulations on mine/UXO victims assistance within all administrative levels in Bosnia and Herzegovina.

Within the revision procedures for Mine Action Strategies 2009 – 2019, Bosnia and Herzegovina Mine Action Centre organized two day long workshop with technical and financial support from International Red Cross Committee in order to revise MRE sub-strategies for mine/UXO victims assistance.

In this reporting period, 13 projects of mine / UXO victims assistance has been realized within 800 direct beneficiaries were provided with assistance. During the reporting period, 250 patients, Libyan nationals, were provided with medical treatment and rehabilitation in "Reumal" Fojnica and "Thermal Riviera" Ilidža. Patients' stay in Bosnia and Herzegovina was supported by the BiH Ministry of Foreign Affairs and the Ministry of Security. The treatment lasted for 3 months, as it was the period their visa was valid.

Through projects of medical rehabilitation, 6 mine victims from Bosnia and Herzegovina were provided with prosthetic care at the University Rehabilitation Institute (URI) Soca, Slovenia.
