Form H Technical characteristics of each type produced/owned or possessed

Article 7.1 “Each State Party shall report to the Secretary General … on:

h) The technical characteristics of each type of anti-personnel mine produced, to the extent known, and those currently owned or possessed by the State Party, giving, where reasonably possible, such categories of information as many facilitate identification and clearance of anti-personnel mines; at a minimum, this information shall include the dimensions, fusing, explosive content, metallic content, color photographs and other information which may facilitate mine clearance”.

State [Party]: the Republic of Macedonia reporting for the time period from 30.04.2006 to 30.04.2007

Not applicable. The Republic of Macedonia is neither a producer nor it possesses anti-personnel mines.
Form I  Measures to provide warning to the population

Article 7.1 “Each State Party shall report to the Secretary General … on:
   i) The measures taken to provide an immediate and effective warning to the population in relation to all areas identified under paragraph 2 of Article 5”.

Remark: In accordance with Article 5, para.2: “Each State Party shall make every effort to identify all areas under its jurisdiction or control in which anti-personnel mines are known or suspected to be emplaced and shall ensure as soon as possible that all anti-personnel mines in mined areas under its jurisdiction or control are perimeter-marked, monitored and protected by fencing or other means, to ensure the effective exclusion of civilians, until all anti-personnel mines contained therein have been destroyed. The marking shall at least be to the standards set in to the Protocol on Prohibition or Restrictions on the Use of Mines, Body-Traps and Other Devices, as amended on 3 May 1996, annexed to the Convention on Prohibitions or Restriction on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects”.
