The Humanitarian Impact of Mines Other Than Anti-Personnel Mines (MOTAPM)

Erni Tollefsen
Program Manager, Non-Explosive de-mining, IDS and methodology, OCHA Information Centre for Humanitarian Demining

> Overview

- Vast majority of victims are civilian
- Large socio-economic impact on the civilian population
- Prevents humanitarian access
- Challenging for survey and clearance operations
- Hazards remain long after the conflict has ended

Accidents involving AVMs

> Typical scenarios

Restrictions of movement and access for emergency assistance
Thank you for your attention!

Erik Toljesen
Programme Manager EOC, Stockpile destruction and Technology
